The Law of Attraction: Personal Attractor Patterns

Unity of Farmington Hills: 32500 W. 13 Mile Rd, Farmington Hills, MI

Saturday, September 17, 2011, 1-5PM \$30-\$40

This 4 hour seminar is an examination of the theory of Personal Attractor Patterns, as developed by Cristo L. Bowers, which is an infallible and yet often disregarded aspect of the Law of Attraction. Personal Attractor Patterns are the individual, psychic and causal energies that inform an individual's unconscious through birth or societal conditioning and that continue to manifest as the life-experience of the individual. Personal Attractor Patterns as unconscious belief systems, core-level conflict, spiritual purpose, and the distribution of energy through the chakras can be perceived clairvoyantly to reveal the mystery of The Law of Attraction as it infallibly creates through Personal Attractor Patterns.

During the seminar, Cristo will provide detailed examples from various case-studies taken from his private practice as a clairvoyant-healer illuminating the deeply creative capacity of Personal Attractor Patterns to organize life experience from the level of the unconscious despite the surface, conscious intention to create outside of known and unknown patterns. A portion of the seminar will consist of demonstrations with members of the audience who volunteer to be examined clairvoyantly. Those who volunteer and are chosen will stand to have their Personal Attractor Patterns clairvoyantly examined. Cristo will provide insights into the functioning of the Personal Attractor Patterns as they define the life-experience of those who volunteer.

Central Life Conflict: A Journey into the Core

Crazy Wisdom Meeting Room: 114 S. Main Street, Ann Arbor, MI

Sunday, September 25, 2011, 1-4PM, \$20

At the Core of each person is a vast potential for personal and global transformation that is the stage of a great conflict. This three hour seminar is first an overview of the theory of Central Life Conflict as evolved by Cristo L. Bowers through his practice as a clairvoyant-healer, and is second an individual examination/demonstration of the Core Life Conflict of those in attendance who volunteer and are selected to be examined clairvoyantly. The clairvoyant examination will be conducted in a group setting that holds each individual sacred and is respectful of the psychological and emotional well-being of those in attendance.

Overcoming the World: Awakening into Christ Consciousness

Unity of Livonia: 28660 Five Mile Road, Livonia, Michigan 48154

Seminar Dates and Locations: Cristo L. Bowers, Spiritual Teacher & Healer

This life-changing seminar, led by clairvoyant Cristo L. Bowers, and by mystic, David M. Winfree, illuminates the nature of Christ Consciousness and the ascension of individuals and humanity to the attainment of the day-by-day experience of this state.

Cristo Bowers will provide an in-depth examination of the life and teachings of the personage Jesus of Nazareth as he awoke into Christ consciousness. What does it mean to live an awakened life? The Gospels, as one of the few surviving records of the life of Jesus, document the qualities of transcendent—or Christ—consciousness. Drawing on all four Gospels, as well as his own experience of awakening into Christ consciousness, Cristo will illuminate the deeply esoteric, and often overlooked, teachings contained in the Gospels on overcoming the world. Through the example of Jesus who became the Christ, we each can also awaken and say as our Great Exemplar over 2000 years ago, “It is finished.”

David Winfree will illuminate the pivotal steps for those who are seeking the experience of Christ Consciousness in this lifetime to attain this goal. He will share his own experiences of ascending consciousness and of awakening, and point-out how to overcome obstacles and also the most important steps along the road. His emphasis is that the time to ascend to Christ Consciousness is now! He makes the listener aware of Divinity within, helping them understand that Christ Consciousness need no longer be thought of as a distant goal; not impossible or too difficult, but accessible and close at hand, brought to pass by the light illuminating everyone coming into the world, ONE’S TRUE SELF.

Seminar Dates and Locations: Cristo L. Bowers, Spiritual Teacher & Healer

Crazy Wisdom Meeting Room: 114 S. Main Street, Ann Arbor, MI

Sunday, October 23, 2011, 1-4PM, \$20

This special seminar, led by clairvoyant & clairaudient Cristo L. Bowers, is an intimate discussion pertaining to the discovery of one's spiritual purpose. Based upon his private counseling work, Cristo knows that each person carries images of a unique life purpose. Cristo locates these images in the higher heart center, an undocumented chakra of great significance whose location and function will be discussed at length within the seminar.

Cristo will provide detailed examples taken from his professional case studies of the spiritual purpose of his clients as seen clairvoyantly and as documented in the yearnings, thought-life, and career choices of the individual. Cristo will also consider the collective and global significance of the fulfillment of these spiritual images.

The seminar will be followed by a question and answer session, as well as demonstrations. Demonstrations will consist of the clairvoyant examination of the Higher Heart Centers of those members of the audience who volunteer and are selected to be examined.

Archetypes and the Psyche

Crazy Wisdom Meeting Room: 114 S. Main Street, Ann Arbor, MI

Sunday, November 13, 2011, 1-4PM, \$20

This session will introduce participants to the formal aspects of the psyche known as archetypes. Archetypes are energetic patterns that underlie the formation of the psyche and give rise to its characteristics, including patterns of behavior, talents, longing, and even frustrations. Each individual incarnates with between 1 and 10 archetypal forms, forming what Cristo has termed the "archetypal matrix" of the personality.

Examples of archetypes and archetypal patterning will be given from real-life scenarios taken from various case studies from Cristo's private practice as a healer illustrating the deeply influential nature of the archetypal energies as they demonstrate through the personality. This special session will explore the shadow as well as the celestial, or positive, aspect of the archetypal energies as they can be harnessed in support of the creation of the birth vision of the individual.

A brief overview of the process of incarnation will be given as it pertains to the advent of the soul into materiality, with a special emphasis on how we unconsciously cultivate archetypal energies and patterns, and how we can consciously undertake the invocation of new archetypal energies that are more congruent with one's birth vision. The lecture will follow with a question and answer session with the speaker. Further exploration of archetypal energies and patterns will be given through volunteer demonstrations.
